

In Store Service Initiative – Beacon Installation Instructions

Tools Required:

Drill
5/8" Spade Drill Bit
3/16" Drill Bit
Phillips Head Drill Bit

Material List:

Beacon
Beacon Back Plate
Beacon Power Cord
"Service Group Elec. Sign In" sign
4, #6 1" Drywall screws
2, #6 1/2" Tapping screws

Mounting Instructions:

1. Using 2, #6 – 1/2" tapping screws; fasten sign to back of beacon.
2. Locate power supply nearest Vendor Log Book.
3. Position beacon 3 inches from Service Desk front edge.
4. Mark on desk guide holes for beacon power supply and beacon mounting.
5. Using 5/8" spade drill bit, drill hole for beacon power supply.
6. Pull beacon power cord through 5/8" hole and attach to beacon.
7. Make sure red light is blinking on front of beacon, before mounting to desk.
8. Slide back beacon cover into slots on beacon.
9. Using 3/16" drill bit, drill 4 holes in desk using beacon mounting guide marks made in step 4.
10. Using 4 #6 drywall screws, mount beacon to desk.
